Employment History

CAD/CAM Digital Modeller, TeamOlmed, Solna

FEBRUARY 2013

I design 3D models that form the basis of orthopedic aids in accordance with specific medical and technical specifications.

In my role, I guide the department to function at the highest level; whether in production, training or development; I use Agile and Scrum concepts and processes to create adaptable environments that enable maximum collaboration, goal fulfillment, problem solving, timeliness and efficiency.

Business Partner, Gravity Jones Ski Werks, Vail, Colorado

SEPTEMBER 2004 — JUNE 2009

As a partner, I worked with all aspects of business ownership, from technical knowledge, customer satisfaction and profitability, to marketing and accounting. As a certified podiatrist, I manufactured orthoses and performance-enhancing aids for elite athletes in all types of sports as well as for patients from across the United States.

Professional Ski Instructor, Vail Resorts, Vail, Colorado

AUGUST 2002 — MAY 2014

For two decades and on three continents, I trained children and adults with different performance levels in alpine skiing. As a PSIA-certified Rocky Mountain trainer, I also taught other ski instructors in biomechanics, leadership, movement analysis, and how to speak in front of people.

Education

Code Institute

May 2022 – Feb 2023

Master of Science, Psychology , Mittuniversitetet , Östersund

AUGUST 2010 — JUNE 2012

Quantitative and qualitative research design, minor in sociology, applied sports coaching, social work, conflict resolution

Podiatry, Oklahoma State University , Okmulgee

JUNE 2005 — SEPTEMBER 2005

Podiatric certification program - anatomy, biomechanics and orthopedics

Bachelor i Psychology, University of Maine, Farmington

AUGUST 1997 — JUNE 2001

Courses

Fullstack development (HTML/CSS/Javascript/JSON/React) course

Salesforce Trailblazer Administration and Developer course
